

RIGHT OF WAY ACQUISITION FOR RADIO TOWER SITES

Yaggy Colby Associates is in the process of completing right of way (R/W) pre-acquisition activities needed to acquire land for the construction of radio communications towers throughout the state of Minnesota. Each parcel is approximately five acres, and currently 42 sites have been initiated. In addition to the actual tower site, access to and from the tower is essential. Willing sellers are submitted one at a time, or in groups of several, and site locations range from one end of Minnesota to another.
